## **Resolution of the Conferenze of ICOR Africa**

### **On the Democratic Republic of the Congo**

The Democratic Republic of the Congo is still mired in the torments of imperialist exploitation and domination.

After the Sudan, the Democratic Republic of the Congo is in the cross hairs of a process of fragmentation to make the country easily plundered by multinationals. Armed conflict are an effective means of achieving their objectives. Rwanda serves as a Trojan horse, to weaken the heart of Africa. It plays a leading role in the destabilization of the Congo with its tens of thousands of deaths every year, mainly women and children. The mainstream media, which takes orders the broadcasting of these crimes of extermination of the people, peasants, men and women. We notice a curious silence of the international community and African States.

ICOR denounces these plans for the Balkanization of the Congo and condemns the imperialist crimes which are an existential threat to the Congolese people.

The ICOR calls for solidarity with Congolese progressive forces, who must mobilize the masses of the people, peasants and workers. the masses of the people, peasants and workers to defeat imperialist plans in the Congo and Africa.
